FRAMEWORK DOCUMENT: On the development of NGO Framework of Action Adopted within the 1st Edition of the NGO COMMON SPACE 12-16 October 2026, Banjul, Republic of The Gambia

This Framework Document is designed to enable meaningful civil society engagement in monitoring and reporting the implementation of the 2025 Doha Political Declaration on the SWSS for Social Development. The finalized Framework will be presented for adoption at the concluding session of the NGO Restitution Summit, reflecting key outcomes, consolidated perspectives, and regional consultations arising from the zero draft deliberations.

The document is open for endorsement from 14 April 2026 and is circulated to participate in international delegates in advance to secure broad-based support, foster shared ownership, and promote a cohesive approach to its finalization and implementation.

Principles and Governance

Guided by the principles of inclusivity, equitable representation, and institutional sustainability, stakeholders agree to further consolidate the NGO Coalition's governance structure along clear and transparent lines. This consolidation aims to clarify roles, responsibilities, and decision-making processes to ensure accountable and participatory governance.

Institutional Strengthening and Action

The implementation of this Framework will strengthen the Coalition's institutional capacity, enhance operational effectiveness, and reinforce its standing as a credible civil society mechanism within the broader social development architecture. Signatories commit to advancing measurable and time-bound actions rather than solely declaratory statements, underpinned by solidarity, mutual respect, and shared responsibility.

Collective Commitment

This Framework continues the trajectory established at the Ottawa pre-summit (2025) and the Doha SWSS for Social Development, and it informs preparations for the 2026 Gambia Restitution Summit. These processes reaffirm our collective commitment to constructive dialogue, strengthened cooperation, and a unified vision for inclusive and sustainable social development within the United Nations framework.

Confirmation and Acknowledgement

As detailed in the attached NGO Framework of Action for implementing the 2025 Doha Political Declaration on Social Development, GAMBIA 2026 represents a deliberate continuation of our collective efforts and a transition toward a more structured, results-oriented phase of collaboration with social development stakeholders.

I confirm that I am the authorized representative of my organization to review and approve the attached Framework Document and, if acceptable, to provide formal endorsement. Our organization's support will advance a coordinated, inclusive approach to the 2025 Doha political acceleration and will strengthen the institutional capacity and relationship of the NGO Coalition for Social Development with the United Nations ECOSOC and affiliated entities.

This endorsement signifies our commitment to solidarity, coherence, and principled engagement, which underpin the NGO Coalition and its evolving governance framework.
